

'Save and Have'

---Franklin.

This is the day that the nation once again does homage unto him who brought into its life so many great and useful things. Whose teachings have and always will start many men and women in all walks of life on the road to Success and Happiness. That kind, wise and interesting counsellor of Thrift — BENJAMIN FRANKLIN!

In harmony with the Thrift message so frequently enunciated by Benjamin Franklin, this Bank places its facilities at your disposal and invites your patronage.

Hatchery Now Open!

A Little Starting Mash Will Start Your Ford

We have opened our new hatchery in the former A. L. Green Monument Works. We will be pleased to meet our old friends and customers, and also our new neighbors and friends. Our hatchery is operated entirely by electricity, which method is years ahead of any other known method.

BABY CHICKS

See us for Baby Chicks. We furnish you with chicks that have size, liveability, are fluffy and have vitality; every chick a purebred and backed by ancestors that have been bred consistently for high egg production. We will treat you right on your baby chick orders entrusted to us.

CUSTOM HATCHING

Bring us your eggs and we will hatch them for you. Where you get eggs with good fertility and give them the needed attention we can assure you a hatch of real lively and fluffy chicks. First come, first served. Your order should be booked well in advance.

SUPPLIES

We carry a complete line of the best in brooder stoves, both oil and coal. The Economy pig and poultry houses and the Kozy brooder houses. Vita Brand Cod Liver Oil. Nutrena and Quisenberry poultry and stock feeds. Also complete line of Jamesway poultry equipment. We will be pleased to show these to you. Write for interesting catalog.

WE DELIVER

---the public now demands

375,000

Jars of Vicks
daily

Compared with 1918, this epidemic, so far, is mild; and yet, in spite of vastly increased capacity, the Vicks Laboratories are once more operating night and day to meet the emergency demand for more and more Vicks Vaporub. Over 375,000 jars are now being produced daily.

approved method of using Vicks for **FLU**

1. AS A PREVENTIVE

Several times a day, insert Vicks up the nostrils. Also melt a little night and morning in a bowl of boiling water and inhale the steaming medicated vapors. This helps to ward off germ-infection.

2. IF A COLD STARTS

If possible, go home and go to bed. Take a laxative and a hot lemonade. Apply hot, wet towels over throat and chest until the skin is thoroughly reddened. Then rub vigorously with Vicks. Spread on thickly and cover with warm flannel. Leave the bed-covering loose, so that the vapors, released by the body-heat, may be freely inhaled. At the same time, Vicks acts through the skin like a poultice.

Repeat this treatment every four hours, eat lightly, and stay in bed until the cold is broken. Complete rest helps the body throw off the cold more quickly.

3. AFTER A FLU ATTACK

Physicians advise that the chief danger in this epidemic is after influenza. Then, more than ever, colds, attacking the weakened system, may lead to bronchitis, sinus-trouble or pneumonia. This is especially true of children or old folks.

Heed even the slightest cold as a danger signal. Vicks is especially valuable here, because it is applied externally, and so can be used freely, as often as needed, without upsetting delicate digestions, as too much "dosage" is so apt to do.
